## **Independent Auditors' Report on Review of Condensed Consolidated Interim Financial Information**

The Shareholders  
Dubai Islamic Bank P.J.S.C.

### *Introduction*

We have reviewed the accompanying 30 June 2015 condensed consolidated interim financial information of Dubai Islamic Bank P.J.S.C. (the "Bank") and its subsidiaries (collectively referred to as the "Group"), which comprises:

- the condensed consolidated interim statement of financial position as at 30 June 2015;
- the condensed consolidated interim statement of profit or loss for the three-month and six-month periods ended 30 June 2015;
- the condensed consolidated interim statement of other comprehensive income for the three-month and six-month periods ended 30 June 2015;
- the condensed consolidated interim statement of changes in equity for the six-month period ended 30 June 2015;
- the condensed consolidated interim statement of cash flows for the six-month period ended 30 June 2015; and
- notes to the condensed consolidated interim financial information.

Management is responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with IAS 34, 'Interim Financial Reporting'. Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

### *Scope of Review*

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of condensed consolidated interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### *Conclusion*

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 30 June 2015 condensed consolidated interim financial information is not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting'.

As of date of issuance of this condensed consolidated interim financial information, management are still in the process of evaluating the impact of these new and revised standards on the condensed consolidated interim financial information.

### 3. Basis of preparation

#### 3.1 Statement of compliance

These condensed consolidated interim financial information are prepared in accordance with International Accounting Standard 34. “*Interim Financial Reporting*” issued by the International Accounting Standards Board and also complies with the applicable requirements of the laws in the U.A.E.

These condensed consolidated interim financial information do not include all the information required for a complete set of IFRS consolidated financial statements and should be read in conjunction with the Group’s audited consolidated financial statements for the year ended 31 December 2014. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group’s financial position and performance since the last annual audited consolidated financial statements as at and for the year ended 31 December 2014.

#### 3.2 Judgments and estimates

The preparation of these condensed consolidated interim financial information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, equity, income and expense. Actual amount may differ from these estimates.

In preparing these condensed consolidated interim financial information, the significant judgments made by management in applying the Group’s accounting policies and the key sources of estimates uncertainty were the same as those which were applied to the audited consolidated audited financial statements as at and for the year ended 31 December 2014.

### 4. Significant accounting policies

The accounting policies used in the preparation of these condensed consolidated financial information are consistent with those disclosed in the audited consolidated financial statements as at and for the year ended 31 December 2014, except for changes in reportable segments as disclosed in Note 21.

Summary of significant accounting policies applied in the preparation of these condensed consolidated interim financial information are as follows:

#### 4.1 Financial risk management

The Group's financial risk management objectives and policies are consistent with those disclosed in the audited consolidated financial statements as at and for the year ended 31 December 2014.

#### 4.2 Investments in Islamic Sukuk

Investments in Islamic Sukuk are measured at amortised cost if both of the following conditions are met:

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and profit on the principal amount outstanding.

Investments in Islamic Sukuk meeting these criteria are measured initially at fair value plus transaction costs. They are subsequently measured at amortised cost using the effective yield basis less any impairment, with profit recognised on an effective yield basis in income from investments in Islamic Sukuk in the condensed consolidated interim statement of profit or loss.

#### 4.3 Other investments

##### 4.3.1 Investments measured at fair value through profit or loss ("FVTPL")

Investments in equity instruments are classified as at FVTPL, unless the Group designates an investment that is not held for trading as at fair value through other comprehensive income (FVTOCI) on initial recognition.

Financial assets (other than equity instruments) that do not meet the amortised cost criteria are measured at FVTPL. In addition, financial assets (other than equity instruments) that meet the amortised cost criteria but are designated as at FVTPL are measured at FVTPL. Financial assets (other than equity instruments) may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases. The Group has not designated any financial assets (other than equity instruments) as at FVTPL.

Financial assets are reclassified from amortised cost to FVTPL when the business model is changed such that the amortised cost criteria are no longer met. Reclassification of financial assets (other than equity instruments) that are designated as at FVTPL on initial recognition is not allowed.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on remeasurement recognised in the condensed consolidated interim statement of profit or loss.

Dividend income on investments in equity instruments at FVTPL is recognised in the condensed consolidated interim statement of profit or loss when the Group's right to receive the dividends is established in accordance with IAS 18 *Revenue* and is included in the condensed consolidated interim statement of profit or loss.

## Notes to the condensed consolidated interim financial information for the six-month period ended 30 June 2015

### 4. Significant accounting policies (continued)

#### 4.3 Other investments (continued)

##### 4.3.2 Investments measured at fair value through other comprehensive income (“FVTOCI”)

Investments in equity instruments at FVTOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the investments revaluation reserve in equity. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the investments.

Dividends on these investments in equity instruments are recognised in condensed consolidated interim statement of profit or loss when the Group’s right to receive the dividends is established in accordance with IAS 18 *Revenue*, unless the dividends clearly represent a recovery of part of the cost of the investment.

#### 4.4 Investment properties

Investment properties are properties held to earn rentals and / or for capital appreciation (including property under construction for such purposes). Investment properties are measured at cost less accumulated depreciation and impairment loss. Depreciation on investment in buildings is charged on a straight-line basis over 25 years.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the condensed consolidated interim statement of profit or loss in the period in which the property is derecognised.

Transfers to investment properties are made when, and only when there is change in use evidenced by ending of owner-occupation, or commencement of an operating lease to another party. Transfers from investment properties are made when, and only when, there is change in use evidenced by commencement of owner-occupation or commencement of development with a view to sale.

#### 4.5 Investments in associates and joint ventures

The results and assets and liabilities of associates and joint ventures are incorporated in these condensed consolidated interim financial information using the equity method of accounting. Under the equity method, an investment in associates and joint ventures is initially recognised in the condensed consolidated interim statement of financial position at cost and adjusted thereafter to recognise the Group’s share of the profit or loss and other comprehensive income of the associates and joint ventures. When the Group’s share of losses of associates and joint ventures exceeds the Group’s interest in that associates and joint ventures (which includes any long-term interests that, in substance, form part of the Group’s net investment in the associates and joint ventures), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate and joint venture.

When a Group’s entity transacts with an associate or a joint venture of the Group, profits and losses resulting from the transactions with the associate or joint venture is recognised in the Group’s condensed consolidated interim financial information only to the extent of interests in the associate or joint venture that are not related to the Group.

An investment in an associate or a joint venture is accounted for using the equity method from the date on which the investee becomes an associate or joint venture. On acquisition of the investment in an associate or a joint venture, any excess of the cost of acquisition over the Group’s share of the net fair value of the identifiable assets, liabilities and contingent liabilities of associates and joint ventures recognised at the date of acquisition is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group’s share of the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition, after reassessment, is recognised immediately in the condensed consolidated interim statement of profit or loss in the period in which the investment is acquired.

## **Notes to the condensed consolidated interim financial information**

*for the six-month period ended 30 June 2015*

### **4. Significant accounting policies (continued)**

#### **4.5 Investments in associates and joint ventures (continued)**

The requirements of International Financial Reporting Standards are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in associate and joint venture.

The Group discontinues the use of equity method from the date when the investment ceases to be an associate or a joint venture. The Group continues to use the equity method when an investment in an associate becomes an investment in a joint venture or an investment in joint venture becomes an investment in an associate.

Upon disposal of associates and joint ventures that results in the Group losing significant influence over that associates and joint ventures, any retained investment is measured at fair value at that date and the fair value is regarded as its fair value on initial recognition as a financial asset in accordance with IFRS 9. The difference between the previous carrying amount of the associates and joint ventures attributable to the retained interest and its fair value is included in the determination of the gain or loss on disposal of the associates and joint ventures. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associates and joint ventures on the same basis as would be required if that associates and joint ventures had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that associates and joint ventures would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when it loses significant influence over that associates and joint ventures.

## Notes to the condensed consolidated interim financial information for the six-month period ended 30 June 2015

### 21. Segmental information

#### 21.1 Reportable segments

Reportable segments are identified on the basis of internal reports about the components of the Group that are regularly reviewed by the Group's chief operating decision maker in order to allocate resources to the segment and to assess its performance.

The Group's reportable segments are organised into five major segments as follows:

- Consumer banking: Principally handling individual customers' deposits, providing consumer murabahats, salam, home finance, ijarah, credit cards and funds transfer facilities and trade finance facilities.
- Corporate banking: Principally handling financing and other credit facilities and deposit and current accounts for corporate and institutional customers.
- Real estate development: Property development and other real estate investments by subsidiaries.
- Treasury: Principally responsible for managing the Bank's overall liquidity and market risk and provides treasury services to customers. Treasury also runs its own Islamic sukuk and specialises financial instruments book to manage the above risks.
- Other: Functions other than above core lines of businesses including investment banking services.

The accounting policies of the above reportable segments are the same as the Group's accounting policies.

- (d) In addition to the registered ownership described above, the remaining equity in the entities 29 and 30 are also beneficially held by the Bank through nominee arrangements.
- (e) In 2010, the Bank embarked on a plan to fully acquire Tamweel PSC, in a phased manner. The acquisition was envisaged to unlock full value of the company by providing long term strategic support. As part of the plan, in November 2010, the Bank acquired 37.5% shares from then strategic shareholders by paying cash, to increase the shareholding to 58.3%. Subsequently in March 2013, the Bank further acquired 28.2% shares by offering share swap of Tamweel with DIB, thereby increasing Bank’s shareholding to 86.5%.

In April 2015, the Bank made an offer to the remaining holders of the non-controlling interest of Tamweel to acquire their shares at a consideration of AED 1.25 per share. The Bank acquired 5.32% shares thereby increasing the Bank’s ownership to 91.8%. The difference between the consideration paid and the fair value of the non-controlling interest acquired has been recognised in the statement of changes in equity.
