- 4. Only the Shareholder registered on Wednesday, 24 March 2021 has the right to attend and vote in the General Assembly meeting.
- 5. Any shareholder that has the right to attend the General Meeting may delegate any person elected by such shareholder, other than a Director, under a special written proxy. A proxy of a number of shareholders shall not hold in this capacity over 5% of the share capital of the company. Shareholders who are minors or legally incapacitated shall be represented by their legal representatives.
- 6. The shareholders can access and review the financial statements on the website www.dib.ae
- 7. The General Assembly Meeting will not be valid if not attended by the quorum (50% of the company's capital), and if the quorum is not met in the first meeting, a second meeting shall take place on Thursday, 01 April 2021 in the same manner and at the same time.

**Directors' Report** 

# **Board of Directors' Report**

The Board of Directors of Tamweel P.S.C. has pleasure in submitting the consolidated statement of financial position of Tamweel P.S.C. and its subsidiaries (together the "Group") as of 31 December 2020, and the related consolidated statements of income, cash flows and changes in equity for the year ended 31 December 2020.

# Principal activities

The Company is licensed by the UAE Central Bank as a finance company and is primarily engaged in Islamic Sharia'a compliant financing and investment activities predominantly in the area of residential mortgages. The activities of the Company are conducted in accordance with Islamic Sharia'a, which prohibits usury, and within the provisions of its Articles and Memorandum of Association. Additionally, the Company also generates leasing income from its investment properties. The Company is a subsidiary of Dubai Islamic Bank PJSC (DIB) which holds 92% of the equity of the Company.

#### **Directors**

The current Board of Directors consists of:

Abdulla Ali AlHamli (Chairman)

Mohammed Saeed AlSharif (Vice Chairman)

Obaid Khalifa Al Shamsi (Director)

Nasser Abdulla Al Awadhi (Director)

Musabbah Al Qaizi (Director)

#### Financial results

The Company has recorded a loss of AED 98 million in 2020 as compared to a net profit of AED 190 million in 2019. The operating income for year 2020 is AED 156 million compared to AED 352 million in 2019.

Islamic financing and investing assets in 2020 decreased to AED 1,588 million compared to AED 1,938 million in 2019. Total equity as at 31 December 2020 amounts to AED 2,752 million (December 2019: 2,865 million).

# Financial results - continued

The Company In accordance with the Articles of Association of the Company and the UAE Commercial Companies Law, the Board of Directors has not proposed any transfer to statutory reserve considering the net loss for the year. Further, no transfer is proposed to general reserve as the reserve is in excess of 50% of the paid up capital of the Company. In accordance with Articles of Association of the Company, this is subject to the approval by the shareholders at the forthcoming Annual General Meeting of the Company.

# Proposed dividend

The Board of Directors has proposed not to pay any dividend for year 2020 (2019: Nil), which is subject to the approval by the shareholders at the forthcoming Annual General Meeting of the Company.

#### **Auditors**

Deloitte & Touche (M.E.) were appointed as external auditors of the Company for the year ended 31 December 2020. Deloitte & Touche (M.E.) is eligible for appointment as auditor for 2021.

On behalf of the Board

Abdullah Ali Al Hamli

Chairman

Shari'ah Report

# Internal Shari'ah Supervision Committee's Report of Tamweel PJSC Submitted to the General Assembly for the Financial Year 2020

#### To: Shareholders of Tamweel

After greetings,

Pursuant to requirements stipulated in the relevant laws, regulations and standards ("the Regulatory Requirements"), and the exception provided by the Central Bank of the UAE the Internal Shari'ah Supervision Committee of Dubai Islamic Bank PJSC (the parent company of Tamweel) ("ISSC") supervises the Sharia governance of Tamweel. The ISSC presents to you the ISSC's Annual Report for the financial year ending on 31 December 2020 ("Financial Year").

# Responsibility of the ISSC

In accordance with the Regulatory Requirements and the ISSC's charter, the ISSC's responsibility is stipulated as to:

- a. undertake Shari'ah supervision of all businesses, activities, products, services, contracts, documents and business charters of Tamweel; and Tamweel's policies, accounting standards, operations and activities in general (to the extent of what was presented to the ISSC), memorandum of association, charter, financial statements, allocation of expenditures and costs, and distribution of profits between holders of investment accounts and shareholders ("Bank's Activities") and issue Shari'ah resolutions in this regard, and
- b. determine Shari'ah parameters necessary for Tamweel's Activities, and Tamweel's compliance with Islamic Shari'ah within the framework of the rules, principles, and standards set by the Higher Shari'ah Authority ("HSA") to ascertain compliance of Tamweel with Islamic Shari'ah.

The senior management is responsible for compliance of Tamweel with Islamic Shari'ah in accordance with the HSA's resolutions, fatwas, and opinions, and the ISSC's resolutions within the framework of the rules, principles, and standards set by the HSA ("Compliance with Islamic Shari'ah") in all Bank's Activities, and the Board bears the ultimate responsibility in this regard.

#### 2 Shari'ah Standards

In accordance with the HSA's resolution (No. 18/3/2018), and with effect from 01/09/2018, the ISSC has, to the best of its judgment, abided by the Shari'ah standards issued by the Accounting and Auditing Organization for Islamic Financial Institutions (AAOIFI) as minimum Shari'ah requirements, in all fatwas, approvals, endorsements and recommendations, relating to Tamweel's Activities.

# **3** Duties Fulfilled by the ISSC During the Financial Year

The ISSC conducted Shari'ah supervision of Tamweel's Activities by reviewing those Activities, and monitoring them through the internal Shari'ah Control Department and Internal Shari'ah Audit Department of Dubai Islamic Bank PJSC (the parent company), in accordance with the ISSC's authorities and responsibilities, and pursuant to the Regulatory Requirements in this regard. The ISSC's activities included the following:

- a. Convening (18) meetings during the year.
- b. Issuing fatwas, resolutions and opinions on matters presented to the ISSC in relation to Tamweel's Activities.
- c. Monitoring compliance of policies, procedures, accounting standards, product structures, contracts, documentation, business charters, and other documentation submitted by Tamweel to the ISSC for approval.
- d. Ascertaining the level of compliance of allocation of expenditures and costs, and distribution of profits between investment accounts holders and shareholders with parameters set by the ISSC.
- e. Supervision through the Internal Shari'ah Control Department and the Internal Shari'ah Audit Department of Dubai Islamic Bank PJSC (the parent company) of Tamweel's Activities including supervision of executed transactions and adopted procedures on the basis of samples selected from executed transactions, and reviewing reports submitted in this regard.
- f. Providing guidance to relevant parties in Tamweel to rectify (where possible) incidents cited in the reports prepared by internal Shari'ah Control Department and Internal Shari'ah Audit Department and issuing of resolutions to set aside revenue derived from transactions in which non-compliances were identified for such revenue to be disposed towards charitable purposes.

- g. Approving corrective and preventive measures related to identified incidents to preclude their reoccurrence in the future.
- h. The ISSC has reviewed and approved the Zakat calculation for Tamweel, in accordance with AAOIFI standards, and the Zakat calculation for the shareholders' retained funds, in accordance with the Articles of association and has notified Tamweel to act as needed.
- i. TamweelCommunicating with the Board and its subcommittees, and the senior management of Tamweel (as needed) concerning Tamweel's compliance with Islamic Shari'ah.

The ISSC sought to obtain all information and interpretations deemed necessary in order to reach a reasonable degree of certainty that Tamweel is compliant with Islamic Shari'ah.

# 4 Independence of the ISSC

The ISSC acknowledges that it has carried out all of its duties independently and with the support and cooperation of the senior management and the Board of Tamweel. The ISSC received the required assistance to access all documents and data, and to discuss all amendments and Shari'ah requirements.

# 5 The ISSC's Opinion on the Shari'ah Compliance Status of Tamweel

Premised on information and explanations that were provided to us with the aim of ascertaining compliance with Islamic Shari'ah, the ISSC has concluded with a reasonable level of confidence, that Tamweel's Activities are in compliance with Islamic Shari'ah, except for the incidents of non-compliance observed, as highlighted in the relevant reports. The ISSC also provided directions to take appropriate measure in this regard.

The ISSC formed its opinion, as outlined above, exclusively on the basis of information perused by the ISSC during the financial year, to the extent of matters presented before the ISSC, obtained data, audited matters, observations made and response of Tamweel to implementation of these observations.

# Zakat due on Tamweel Shares for the Year 2020

Calculation of Zakat payable on your shares is as follows:

1 The Zakat due on shares, purchased for the purpose of trading (i.e. for selling them when their prices increase), is:

Zakat pool per share = the market value of the share (in addition to) distributed

dividend, if applicable.

Zakat per share = Zakat pool per share x = 2.5775\*

Total Zakat due on your shares = number of shares x (Zakat per share -4.794 Fils\*\*)

2 Zakat payable against shareholder's shares purchased for the purpose of benefiting from its annual return and not for the purpose of trading, is 2.349 Fils per share\*\*\*.

<sup>\*</sup> Amount of Zakat for Hijri year is 2.5% and for Gregorian year is 2.5775%

<sup>\*\* (4.794</sup> Fils) Represents portion of a share's Zakat which is paid by Tamweel in respect of the shareholders' funds retained with Tamweel, therefore it should be deducted from the Zakat per share payable by a shareholder.

<sup>\*\*\* (2.349</sup> Fils) represents the balance in a share's zakat calculated by Tamweel (being 7.143 Fils) after deducting 4.794 Fils already paid by Tamweel in respect of shareholders' funds retained with Tamweel.

#### INDEPENDENT AUDITOR'S REPORT

To The Shareholders Tamweel P.S.C. Dubai United Arab Emirates

# REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

#### **Opinion**

We have audited the accompanying consolidated financial statements of Tamweel P.S.C (the "Company") and its subsidiary (the "Group"), which comprise the consolidated statement of financial position as at 31 December 2020, the consolidated statement of profit or loss, consolidated statement of other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements including a summary of significant accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2020, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS).

#### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the other ethical requirements that are relevant to our audit of the Group's financial statements in the United Arab Emirates, and we have fulfilled our other ethical responsibilities. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Other Information

Management is responsible for the other information. The other information comprises the Board of Directors' report which we obtained prior to the date of this auditors' report and the Internal Sharia Supervisory Committee's report which is expected to be made available to us after that date. The other information does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance or conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the remaining information of the annual report of the Group, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

# Deloitte.

#### **Independent Auditors' Report (continued)**

#### Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs and their preparation in compliance with the applicable provisions of the UAE Federal Law No. (2) of 2015, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risk, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than the one resulting from error, as fraud may involve collusion, forgery, intentional omission, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Deloitte.

#### **Independent Auditors' Report (continued)**

# Report on Other Legal and Regulatory Requirements

Further, as required by the UAE Federal Law No. (2) of 2015, we report the following:

- We have obtained all the information we considered necessary for the purposes of our audit;
- The financial statements have been prepared and comply, in all material respects, with the applicable provisions of the UAE Federal Law No. (2) of 2015;
- The Company has maintained proper books of account;
- The financial information included in the Directors' report is consistent with the Company's books of account;
- Note 8 to the financial statements of the Company discloses its investments in shares during the financial year ended 31 December 2020;
- Note 27 to the financial statements of the Company discloses material related party transactions, the terms under which they were conducted and principles of managing conflict of interests;
- Based on the information that has been made available to us nothing has come to our attention which causes us to believe that the Company has contravened during the financial year ended 31 December 2020 any of the applicable provisions of the UAE Federal Law No. (2) of 2015 or of its Articles of Association which would materially affect its activities or its financial position as at 31 December 2020; and
- Note 12 to the financial statements discloses social contributions made during the financial year ended 31 December 2020.

Further, as required by Article (114) of the Decretal Federal Law No. (14) of 2018, we report that we have obtained all the information and explanations we considered necessary for the purpose of our audit.

#### 1. General information

Tamweel P.S.C. (the "Company") was registered on 3 June 2006 as a Public Joint Stock Company and converted from Public to Private Joint Stock Company with effect from 27 August 2014. The parent and ultimate holding Company is Dubai Islamic Bank P.J.S.C. ("DIB" or the "Parent Company"). The share capital of the Company comprises 1,000,000,000 shares of AED 1 each.

The Company is licensed by the U.A.E. Central Bank as a finance company and is primarily engaged in Sharia compliant financing and investment activities such as Ijara, Murabaha, Istisna'a etc. The activities of the Company and its subsidiary (together the "Group") are conducted in accordance with Sharia, which prohibits usury, and within the provisions of its Articles and Memorandum of Association. The Group also generates leasing income from its investment properties.

The registered head office of the Group is located in Business Village, B Block, Port Saeed Area, Deira, Emirate of Dubai, U.A.E.

The Group consists of Tamweel P.S.C. and its subsidiary registered up to 31 December 2020, as listed below:

Subsidiaries	Beneficial ownership	Principal activity	Country of incorporation
Tamweel ESOT Limited	100%	SPE for investment in shares	British Virgin Islands

In April 2015, DIB made an offer to the holders of non-controlling interest of Tamweel to acquire their shares. DIB acquired further 5.53% shares thereby increasing its ownership to 92%. Tamweel has since been operating on a run off basis and not writing any new business in accordance with guidance from CBUAE.

# 2 Application of new and revised International Financial Reporting Standards (IFRSs)

# 2.1 New and revised IFRSs applied on the consolidated financial statements

The following new and revised IFRS, which became effective for annual periods beginning on or after 1 January 2020, have been adopted in these financial statements. The application of these revised IFRS has not had any material impact on the amounts reported for the current and prior years but may affect the accounting for future transactions or arrangements.

- Amendment to IFRS 3 Business Combinations relating to definition of a business.
- Amendments to IAS 1 Presentation of Financial Statements and IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors relating to definition of material.
- Amendments to IFRS 16 Leases relating to COVID-19 related rent concessions.

for the year ended 31 December 2020

# 2 Application of new and revised International Financial Reporting Standards (IFRSs) (continued)

# 2.2 New and revised IFRSs in issue but not yet effective

The Group has not early adopted the following new and revised standards that have been issued but are not yet effective. The management is in the process of assessing the impact of the new requirements.

New and revised IFRS	Effective for annual periods beginning on or after
Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 relating to phase 2 of profit rate benchmark reforms	1 January 2021
Amendments to IAS 16 <i>Property, plant and equipment</i> relating to proceeds before intended use.	1 January 2022
Amendment to IAS 37 <i>Provisions, Contingent Liabilities and Contingent Assets</i> relating to onerous contracts.	1 January 2022
Annual improvements to IFRS standards 2018 – 2020.	1 January 2022
Amendments to IAS 1 Presentation of Financial Statements relating to classification of Liabilities as Current or Non-Current.	1 January 2023
Amendment to IFRS 17 Insurance contracts.	1 January 2023
Amendment to IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures relating to treatment of sale or contribution of assets from investors	Effective date deferred indefinitely

Management anticipates that these new standards, interpretations and amendments will be adopted in the Group's financial statements for the period of initial application and adoption of these new standards, interpretations and amendments may have no material impact on the financial statements of the Group in the period of initial application.

for the year ended 31 December 2020

# 3. Definitions of significant terms

The following terms are used in these consolidated financial statements with the meaning specified hereunder:

#### Sharia

Sharia is the body of Islamic law and is essentially derived from The Quran, Sunna'h, Ijma'a and Qiyas. The Group, being an Islamic Financial Institution, incorporates the principles of Sharia in its activities, as set out in the Sharia Standards issued by Accounting & Auditing Organization for Islamic Financial Institutions (AAOIFI), Internal Sharia Supervision Committee and Higher Sharia Authority of UAECB.

### Ijara

Ijara (Ijara Muntahia Bittamleek) is an agreement whereby the Group (in its capacity as a lessor,) leases an asset to the customer (as lessee), after acquiring the specified asset according to the customer's request, against certain rental payments for specified lease term. The duration of the lease term, as well as the basis for rental, are set and agreed in advance. The Group retains ownership of the asset throughout the arrangement. The arrangement could end by transferring the ownership of the asset to the lessee pursuant to the sale of the asset to the lessee by executing an independent sale agreement for this reason.

#### Istisna'a

Istisna'a is a sale contract whereby the Group undertakes to manufacture or construct for the customer, a specific asset or property according to certain agreed upon specifications at a pre-determined price and for a fixed date of delivery. The work undertaken is not restricted to be accomplished by the Group alone and the whole or part of the construction can be undertaken by third parties under the Group's control and responsibility to deliver the asset or property on the agreed upon time.

#### Murabaha

Murabaha is an agreement whereby the Group sells and asset to a customer that is acquired principally based on a promise received from the customer to buy the relevant asset according to the relevant specific terms and conditions. While selling, the Group expressly discloses the costs incurred on the asset that are sold and the profit thereon, to the customer.

#### Forward Ijara

Forward Ijara (Ijara Mausoofa Fiz Zimma) is an arrangement whereby the Group agrees to provide, on a specified future date, certain described property on lease to the customer upon its completion and delivery by the developer, from whom the Group has purchased the property. The lease rental under Forward Ijara commences only upon the customer having received possession of the property from the Group. The arrangement could end by transferring the ownership of the asset to the lessee pursuant to the sale of the asset to the lessee by executing an independent sale agreement for this reason.

#### Mudaraha

A contract between two parties whereby one party is a fund provider (the "Rab Al Mal") who would provide a certain amount of funds (the "Mudaraba Capital"), to the other party (the "Mudarib"). Mudarib would then invest the Mudaraba Capital in a specific enterprise or activity deploying its experience and expertise for a specific pre-agreed share in the resultant profit, if any.

#### Wakala

An agreement whereby the Group provides a certain sum of money to an investment agent, who invests it according to specific conditions in return for a certain fee (a lump sum of money or percentage of the amount invested). The agent may be granted any excess over and above a certain pre-agreed rate of return as a performance incentive. The agent is obliged to return the invested amount in case of default, negligence or violation of the terms and conditions of the Wakala.

for the year ended 31 December 2020

Sukuk

Sukuk is the plural of "Suk" and the term is defined as "investment certificates of equal denomination representing undivided ownership interests in a portfolio of eligible assets. Sukuk commonly refers to the Islamic alternative of bonds. Contrary to conventional bonds, which merely confer ownership of a debt, Sukuk represents ownership of the underlying assets by the holder with all the rights and obligations of ownership.

# 4. Significant accounting policies

# 4.1 Statement of compliance

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB) and applicable requirements of the laws of the U.A.E., including the UAE Federal Law No 2 of 2015 ("UAE Companies Law of 2015"), as amended by the Federal Decretal Law No. 26 of 2020 issued on 27 September 2020, for certain provisions which will take effect on 02 January 2021 and the Decretal Federal Law No. (14) of 2018.

# 4.2 Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis except for other investments at FVTOCI, which are measured at fair value.

The consolidated financial statements are presented in Arab Emirates Dirham (AED) which is also the functional currency of the Group and all values are rounded to the nearest thousands dirham, except when otherwise indicated.

The principal accounting policies are set out below.

#### 4.3 Basis of consolidation

These consolidated financial statements incorporate the financial statements of the Group and entities controlled by the Group. Control is achieved where the Group has:

- power over an investee,
- exposure, or rights, to variable returns from its involvement with the investee, and
- the ability to use its power over the investee to affect the amount of the investor's returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Group has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers all relevant facts and circumstances in assessing whether or not the Group's voting rights in an investee are sufficient to give it power, including:

- the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Group, other vote holders and other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns and previous shareholders' meetings.

for the year ended 31 December 2020

# 4. Significant accounting policies (continued)

#### 4.3 Basis of consolidation (continued)

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the financial period are included in the consolidated statement of profit or loss from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributable to the owners of the Parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets, liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

# 4.4 Revenue recognition

Revenue is recognised in the consolidated statement of profit or loss as follows:

Ijara income

Ijara income is recognised on an effective variable rent element basis over the lease term based on the fixed rental amount outstanding.

Murabaha income

Murabaha income is recognised on an effective profit rate basis over the period of the contract based on the net Murabaha amount outstanding.

Istisna'a income

Istisna'a associated profit margin (difference between the cash price of al-masnoo to the customer and the Group's total Istisna'a cost) is accounted for on an effective profit rate basis over the construction period.

Forward Ijara income

Forward Ijara income during the construction period of the properties is accounted for on an effective variable rent element basis over the construction period on account of rentals. Upon completion of the properties, income is recognised on an effective variable rent element basis over the period of the contract based on the fixed rental amount outstanding.

Processing fees

Processing fees are recognised when the related services are provided.

for the year ended 31 December 2020

# 4. Significant accounting policies (continued)

#### 4.4 Revenue recognition (continued)

Other income

Income earned on mudaraba deposits and wakala investments is recognised on an effective profit rate basis. Dividend income is recognised when the right to receive the income is established.

#### 4.5 Financial instruments

Financial assets and liabilities are recognised when a Group's entity becomes a party to the contractual provisions of the instrument.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in the consolidated statement of profit or loss.

#### 4.5.1 Financial assets

All financial assets are recognised and derecognised on the trade date where the purchase or sale of a financial asset is under a contract whose terms require delivery of the financial asset within the timeframe established by the market concerned, and are initially measured at fair value plus transaction costs that are directly attributable to the acquisition of the financial asset, except for those financial assets measured subsequently at fair value through profit or loss, which are initially measured at fair value.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value.

# Classification of financial assets

An instrument is classified as an 'equity instrument' if it is a non-derivative and meets the definition of 'equity' for the issuer except for certain non-derivative puttable instruments presented as equity by the issuer. All other non-derivative financial assets are classified as 'financial instruments'.

for the year ended 31 December 2020

#### 4. Significant accounting policies (continued)

#### 4.5 Financial instruments (continued)

# 4.5.1 Financial assets (continued)

#### Financial assets measured at amortised cost

The Group's financial assets measured at amortised cost include Bank balances and cash, Islamic financing and investing assets and advances and other receivables. Financial assets (other than equity instruments) are measured at amortised cost if both of the following conditions are met:

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and profit on the principal amount outstanding.

Financial assets (other than equity instruments) meeting these criteria are measured initially at fair value plus transaction costs (except if they are designated as at fair value through profit or loss - FVTPL). They are subsequently measured at amortised cost using the effective profit method less any impairment, with profit revenue recognised on an effective profit method in the consolidated statement of profit or loss.

Subsequent to initial recognition, the Group is required to reclassify financial instruments from amortised cost to FVTPL if the objective of the business model changes so that the amortised cost criteria is no longer met.

The Group may irrevocably elect at initial recognition to classify a financial instrument that meets the amortised cost criteria above as FVTPL if that designation eliminates or significantly reduces an accounting mismatch had the financial asset been measured at amortised cost.

#### Business model assessment

The Group makes an assessment of the objective of a business model in which an asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- how the performance of the portfolio is evaluated and reported to the Group's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- The expected frequency, value and timing of sales are also important aspects of the Group's assessment.

The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realized in a way that is different from the Group's original expectations, the Group does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchases financial assets going forward.

Financial assets that are held for sale or managed and whose performance is evaluated on a fair value basis are measured at FVTOCI because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

for the year ended 31 December 2020

- 4. Significant accounting policies (continued)
- 4.5 Financial instruments (continued)
- 4.5.1 Financial assets (continued)

#### Cash flow characteristics assessment

The contractual cash flow characteristics assessment involves assessing the contractual features of an instrument to determine if they give rise to cash flows that are consistent with a basic financing arrangement. Contractual cash flows are consistent with a basic financing arrangement if they represent cash flows that are solely payments of principal and profit on the principal amount outstanding.

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Profit' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic financing risks and costs (e.g. liquidity risk and administrative costs), as well as profit rate margin.

In assessing whether the contractual cash flows are solely payments of principal and profit, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition

#### Financial assets at fair value through other comprehensive income (FVTOCI)

At initial recognition, the Group can make an irrevocable election (on an instrument-by-instrument basis) to designate investments in sharia compliant equity instruments as at FVTOCI. Designation at FVTOCI is not permitted if the equity investment is held for trading.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has evidence of a recent actual pattern of short-term profit-taking; or
- it is an Islamic derivative that is not designated and effective as an Islamic hedging instrument or a financial guarantee.

Investments in sharia compliant equity instruments at FVTOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the cumulative changes in fair value reserve, within equity. Where the asset is disposed of, the cumulative gain or loss previously accumulated is not transferred to the consolidated statement of profit or loss, but is reclassified to retained earnings.

Dividends on these investments in equity instruments are recognised in the consolidated statement of profit or loss when the Group's right to receive the dividend is established, unless the dividends clearly represent a recovery of part of the cost of the investment.

for the year ended 31 December 2020

## 4. Significant accounting policies (continued)

#### 4.5 Financial instruments (continued)

#### 4.5.1 Financial assets (continued)

### Effective profit method

The effective profit method is a method of calculating the amortised cost of a financial asset and of allocating profit income over the relevant period. The effective profit rate is the rate that is used to calculate the present value of estimated future cash receipts through the expected life of the financial asset, or, where appropriate, a shorter period.

Income is recognised on an effective profit rate basis for financial instruments other than those financial assets designated as at FVTPL.

## Cash and cash equivalents

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash in hand, bank balances, and short-term deposits with an original maturity of three months or less.

# Islamic financing and investing assets

Islamic financing and investing assets include outstanding Ijara fixed rentals, Murabaha sales receivables net of deferred profits, Istisna'a costs incurred to date measured at cash equivalent value and forward Ijara at costs incurred to date. Also included in the Islamic financing and investing assets are Ijara and Forward Ijara variable rental (profit) accruals in addition to Istisna'a and Murabaha amortised profits. These assets are stated at amortised cost net of provisions for impairment and profit suspension, if any.

#### Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised financing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in the consolidated statement of profit or loss.

On derecognition of a financial asset that is classified as FVTOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve in equity is not reclassified to the consolidated statement of profit or loss, but is transferred to retained earnings within equity.

for the year ended 31 December 2020

# 4. Significant accounting policies (continued)

#### 4.5 Financial instruments (continued)

# 4.5.2 Financial liabilities and equity instruments

# Classification as liability or equity

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

Dividends on ordinary shares are recognised as a liability and deducted from equity when they are approved by the Group's shareholders. Dividends for the year that are approved after the reporting date are disclosed as an event after the reporting date.

#### Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective profit rate method.

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective profit rate method. The Groups financial liabilities at amortised cost include the wakala financing and payable and other liabilities.

# Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in consolidated statement of profit or loss.

# 4.6 Impairment of financial assets

Financial assets that are measured at amortised cost are assessed for impairment at each reporting date.

The Group applies a three-stage approach to measure allowance for credit losses, using an expected credit loss approach as required under IFRS 9, for the following categories of financial instruments that are not measured at FVTPL:

- Financial assets that are financing instruments and balances dues from banks;
- Other assets; and
- Off-balance sheet instruments issued.

Financial assets migrate through three stages based on the change in credit risk since initial recognition.

No impairment loss is recognised on equity investments.

for the year ended 31 December 2020

- 4. Significant accounting policies (continued)
- 4.6 Impairment of financial assets (continued)

#### **Excepted credit loss impairment model**

The Expected Credit Loss (ECL) model contains a three stage approach which is based on the change in credit quality of financial assets since initial recognition. Expected credit losses reflect the present value of all cash shortfalls related to default events either (i) over the following twelve months or (ii) over the expected life of a financial instrument depending on credit deterioration from inception.

- Under Stage 1, where there has not been a significant increase in credit risk since initial recognition, an amount equal to 12 months ECL will be recorded. The 12 months ECL is calculated as the portion of life time ECL that represents the ECL that result from default events on a financial instrument that are possible within the 12 months after the reporting date. The Group calculates the 12 months ECL allowance based on the expectation of a default occurring in the 12 months following the reporting date. These expected 12 month default probabilities are applied to a forecast EAD and multiplied by the expected LGD and discounted by an approximation to the original effective profit rate.
- Under Stage 2, where there has been a significant increase in credit risk since initial recognition but the financial instruments are not considered credit impaired, an amount equal to the default probability weighted lifetime ECL will be recorded. The PD and LGD are estimated over the lifetime of the instrument and the expected cash shortfalls are discounted by an approximation to the original effective profit rate.
- Under the Stage 3, where there is objective evidence of impairment at the reporting date these financial instruments will be classified as credit impaired and an amount equal to the lifetime ECL will be recorded for the financial assets, with the PD set at 100%.

When estimating ECL for undrawn commitments, the Group estimates the expected portion of the commitment that will be drawn down over its expected life. The ECL is then based on the present value of the expected shortfalls in cash flows if the financing is drawn down. The expected cash shortfalls are discounted at an approximation to the expected effective profit rate on the financing.

The ECL model is forward looking and requires the use of reasonable and supportable forecasts of future economic conditions in the determination of significant increases in credit risk and measurement of ECL.

#### **COVID-19 and Expected Credit Loss (ECL)**

The global outbreak of novel coronavirus (COVID 19) during early 2020 is causing disruptions in normal lives and businesses in many ways. Global economy and banking systems have also been impacted significantly, both from business and accounting and reporting perspective. Governments and banks in many jurisdictions have introduced extraordinary measures to alleviate the financial and economic impact of COVID-19. The relief measures include a range of different payment moratoriums to customer, liquidity support and capital relief by regulators.

The Group has considered the extraordinary conditions and environment due to COVID 19 for determining ECL requirements as on the reporting date, as applicable. The Group has also considered guidelines issued by the International Accounting Standards Board (IASB) on 27 March 2020.

for the year ended 31 December 2020

- 4. Significant accounting policies (continued)
- 4.6 Impairment of financial assets (continued)

#### **Measurement of ECL**

The Group calculates ECLs based on probability-weighted scenarios to measure the expected cash shortfalls, discounted at an approximation to the effective profit rate. A cash shortfall is the difference between the cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive. IFRS 9 considers the calculation of ECL by multiplying the Probability of default (PD), Loss Given Default (LGD) and Exposure at Default (EAD). The Group has developed methodologies and models taking into account the relative size, quality and complexity of the portfolios.

These parameters are generally derived from internally developed statistical models and other historical data and are adjusted to reflect forward-looking information.

Details of these statistical parameters/inputs are as follows:

- The probability of default (PD) is an estimate of the likelihood of default over a given time horizon;
- The exposure at default (EAD) is an estimate of the exposure at a future default date, taking into account expected changes in the exposure after the reporting date; and

The loss given default (LGD) is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the Group would expect to receive, including from the realization of any collateral. It is usually expressed as a percentage of the EAD.

#### Macroeconomic factors, forward looking information and multiple scenarios

IFRS 9 requires an unbiased and probability weighted estimate of credit losses by evaluating a range of possible outcomes that incorporates forecasts of future economic conditions.

When estimating the ECLs, the Group considers three scenarios (a base case, an upside and a downside) with a weightage of 40%, 30% and 30% respectively. Each of these is associated with different PDs. When relevant, the assessment of multiple scenarios also incorporates how defaulted financing are expected to be recovered, including the probability that the financing will cure and the value of collateral or the amount that might be received for selling the asset.

In its ECL models, the Group relies on a broad range of forward looking information as economic inputs, such as Real house prices – Abu Dhabi and Dubai, Money supply, Effective exchange rate – real broad index, General government finance – expenditure, Commodity prices, Consumer price index, National accounts – compensation of employees and National accounts – real import of goods and services

Macroeconomic factors and forward looking information are required to be incorporated into the measurement of ECL as well as the determination of whether there has been a significant increase in credit risk since origination. Measurement of ECLs at each reporting period should reflect reasonable and supportable information at the reporting date about past events, current conditions and forecasts of future economic conditions. The inputs and models used for calculating ECLs may not always capture all characteristics of the market at the date of the financial statements. To reflect this, qualitative adjustments or overlays are occasionally made as temporary adjustments when such differences are significantly material.

for the year ended 31 December 2020

# 4. Significant accounting policies (continued)

## 4.6 Impairment of financial assets (continued)

# Assessment of significant increase in credit risk

The assessment of a significant increase in credit risk is done on a relative basis. To assess whether the credit risk on a financial asset has increased significantly since origination, the Group compares the risk of default occurring over the expected life of the financial assets at the reporting date to the corresponding risk of default at origination, using key risk indicators that are used in the Group's existing risk management processes. At each reporting date, the assessment of a change in credit risk will be individually assessed for those considered individually significant and at the segment level for retail exposures.

The group of assets are moved from stage 1 to stage 2 if:

- the probability of default changes beyond the Group's established threshold related to the initial recognition;
- an instrument is past due beyond 30 days; and
- an instrument's credit risk is considered higher based on qualitative criteria of the Group.

The instruments moved to stage 2 from stage 1 remain in the stage until they perform for a sustained period as per Group's policy.

Movement from stage 2 to stage 3 are based on whether the financial assets are credit impaired at the reporting date.

#### Experienced credit judgement

The Group's ECL allowance methodology requires the use of experienced credit judgement to incorporate the estimated impact of factors not captured in the modelled ECL results, in all reporting periods.

When measuring ECL, the Group considers the maximum contractual period over which the Group is exposed to credit risk. All contractual terms are considered when determining the expected life, including prepayment options and extension and rollover options.

Default definition followed by the Group for impairment assessment remains in line with the guidelines of IFRS 9, without any recourse to the assumptions, and consistent with regulatory requirements. The policy on the write-off of financing transactions remains unchanged.

# Expected life

When measuring expected credit loss, the Group considers the maximum contractual period over which the Group is exposed to credit risk. All contractual terms are considered when determining the expected life, including prepayment, and extension and rollover options.

for the year ended 31 December 2020

- 4. Significant accounting policies (continued)
- 4.6 Impairment of financial assets (continued)

### Definition of default

The Group considers a financial asset to be in default when:

- it is established that due to financial or non-financial reasons the customer is unlikely to pay its credit obligations to the Group in full without recourse by the Group to actions such as realising security (if any is held); or
- the customer is past due 90 days or more on any material credit obligation to the Group.
- In assessing whether a customer is in default, the Group considers indicators that are:
  - (i) qualitative e.g. material breaches of covenant;
  - (ii) quantitative e.g. overdue status and non-payment on another obligation of the same issuer to the Group; and
  - (iii) based on data developed internally and obtained from external sources.

Inputs into the assessment of whether a financial instrument is in default and their significance may vary over time to reflect changes in circumstances

### Renegotiated financing facilities

The Group sometimes makes concessions or modifications to the original terms of financing as a response to the customer's difficulties, rather than taking possession or to otherwise enforce collection of collateral. The Group considers a financing forborne when such concessions or modifications are provided as a result of the customer's present or expected financial difficulties and the Group would not have agreed to them if the customer had been financially healthy. Indicators of financial difficulties include defaults on covenants or that the finance may not be in a position to honour contractual commitments. Forbearance may involve extending the payment arrangements and the agreement of new financing conditions. Once the terms have been renegotiated, any impairment is measured using the original effective profit rate as calculated before the modification of terms. It is the Group's policy to monitor forborne financing to help ensure that future payments continue to be likely to occur. Classification between Stage 2 and Stage 3 are determined on a case-by-case basis. If these procedures identify a loss in relation to a financing, it is disclosed and managed as an impaired Stage 3 forborne asset until it is collected or written off.

When the financing has been renegotiated or modified but not derecognised, the Group also reassesses whether there has been a significant increase in credit risk. The Group also considers whether the assets should be classified as Stage 3. Once an asset has been classified as forborne, it will remain forborne for a minimum 12-month probation period. In order for the financing to be reclassified out of the forborne category, the customer has to meet all of the following criteria:

- All of its facilities has to be considered performing;
- The probation period of one year has passed from the date the forborne contract was considered performing; and
- Regular payments of more than an insignificant amount of principal or profit have been made during the probation period.

for the year ended 31 December 2020

### 4. Significant accounting policies (continued)

### 4.7 Investment properties

Properties held for rental or capital appreciation purposes as well as those held for undetermined future use are classified as investment properties. Investment properties are measured at cost less accumulated depreciation and any accumulated impairment losses. Depreciation on investment in buildings is charged on a straight-line basis over 40 years.

Investment properties are derecognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognised in the consolidated statement of profit or loss in the year of retirement or disposal.

Transfers are made to investment properties when, and only when there is change in use evidenced by ending of owner-occupation, commencement of an operating lease to another party or ending of construction or development. Transfers are made from investment properties when, and only when, there is change in used evidenced by commencement of owner-occupation or commencement of development with a view to sale.

### 4.8 Property and equipment

Property and equipment are stated at cost less accumulated depreciation and impairment in value, if any. Depreciation is calculated on a straight line basis over the estimated useful life of 20 years for the building. The carrying value of property and equipment is reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the asset is written down to its recoverable amount, being the higher of its fair value less costs to sell and its value in use.

Expenditure incurred to replace a component of an item of fixed assets that is accounted for separately is capitalised and the carrying amount of the component that is replaced is written off. Other subsequent expenditure is capitalised only when it increases future economic benefits of the related item of fixed assets. All other expenditure is recognised in the consolidated statement of comprehensive income as the expense is incurred.

### 4.9 Repossessed properties

In certain circumstances, property is repossessed following the foreclosure on financing that are in default. Repossessed properties are initially recognised at fair value and included within 'Investment properties'.

for the year ended 31 December 2020

### 4. Significant accounting policies (continued)

### 4.10 Impairment of tangible and intangible assets

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the assets is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are calculated to their present value using a profit rate that reflects current market assessments of the time value of money and the risks specific to the asset.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised in the consolidated statement of profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, such that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised in the consolidated statement of profit or loss.

### 4.11 Zakat

Zakat is computed as per the Articles and Memorandum of Association of the Company and its subsidiaries and is approved by the Internal Sharia Supervision Committee of the respective entities on the following basis:

- The portion of zakat payable by the Group on its shareholders' behalf is computed at 2.5775% of the aggregate of general and legal reserves, retained earnings, other reserves and provision for staff gratuity. The parent company computes and pays Zakat on its consolidated financial position including its equity in Tamweel P.S.C. Accordingly no Zakat is considered in these consolidated financial statements in respect of shareholders' equity pertaining to parent company.
- Zakat is disbursed by a committee appointed by the Board of Directors and operating as per the bylaw set by the Board and policies approved by the Internal Sharia Supervisory Committee.
- Zakat on the paid up capital is not included in the Zakat computations and is payable by the shareholders personally.

for the year ended 31 December 2020

### 4. Significant accounting policies (continued)

### 4.12 Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

### 4.13 Employees' end-of-service benefits

Pension and national insurance contributions for the U.A.E. citizens are made by the Group in accordance with Federal Law No. 2 of 2000.

The Group provides end of service benefits for its expatriate employees. Provision for employees' end of service indemnity is made in accordance with the Group's policy which meets the requirements of U.A.E. labour laws, and is based on current remuneration and cumulative years of service at the reporting date.

### 4.14 Foreign currencies

Transactions in foreign currencies are recorded at rates of exchange prevailing at the dates of the transactions.

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period. The foreign exchange component forms part of its fair value gain or loss. For financial assets measured at FVTPL, the foreign exchange component is recognised in the consolidated statement of profit or loss. For financial assets measured at FVTOCI any foreign exchange component is recognised in other comprehensive income.

For foreign currency denominated financial instruments measured at amortised cost, the foreign exchange gains and losses are determined based on the amortised cost of the asset and are recognised in other income in the consolidated statement of profit or loss.

As at the reporting date, the assets and liabilities of foreign subsidiaries are translated into Arab Emirates Dirhams at the rate of exchange ruling at the consolidated statement of financial position date and, their consolidated statement of comprehensive incomes are translated at the average exchange rates for the year. The exchange differences arising on the translation are taken directly to a separate component of equity. On disposal of a foreign entity, the deferred cumulative amount recognised in equity relating to that particular entity is recognised in the consolidated statement of profit or loss.

for the year ended 31 December 2020

### 4. Significant accounting policies (continued)

### 4.15 Leases

The Group initially measures the right-of-use asset at cost and subsequently measured at cost less accumulated depreciation and impairment losses, adjusted for any remeasurement of the lease liability. The Group initially measures the lease liability at the present value of the future lease payments discounted using the discount rate implicit in the lease. Subsequently, the lease liability is adjusted for profit and lease payments, as well as the impact of lease modifications, amongst others.

The Group has elected to apply the expedient allowed by IFRS 16 on its general requirements to short-term leases (i.e. one that does not include a purchase option and has a lease term at commencement date of 12 months or less) and leases of low value assets. For this the Group recognises the lease payments associated with those leases as an expense on a straight-line basis over the lease term or another systematic basis if that basis is representative of the pattern of the lessee's benefits, similar to the current accounting for operating leases.

### 4.16 Fair values

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

For investments actively traded in organised financial markets, fair value is determined by reference to quoted market prices at the close of business on the consolidated statement of financial position date. Bid prices are used for assets and offer prices are used for liabilities.

For unquoted securities fair value is determined by reference to brokers' quotes, recent transaction(s), the market value of similar securities, or based on the expected cash flows calculated at current rates applicable for items with similar terms and risk characteristics.

For investments in properties, fair value is determined periodically on the basis of independent professional valuations.

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Inputs that are quoted market prices (unadjusted) in active markets for identical instruments.

Level 2: Inputs other than quoted prices included within Level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques in which all significant inputs are directly or indirectly observable from market data.

Level 3: Inputs that are unobservable. This category includes all instruments for which the valuation technique includes inputs that are not observable and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments for which significant unobservable adjustments or assumption are required to reflect differences between the instruments.

for the year ended 31 December 2020

### 4. Significant accounting policies (continued)

### 4.17 Offsetting of financial assets and liabilities

Financial assets and financial liabilities are only offset and the net amount reported in the consolidated statement of financial position when there is a legally enforceable right to offset the recognised amounts and the Group intends to settle on a net basis.

### 5. Critical accounting judgments and key sources of estimation of uncertainty

In the application of the Group's accounting policies, which are described in Note 4, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

Significant areas where management has used estimates, assumptions or exercised judgements are as follows:

### 5.1 Significant increase in credit risk

As explained in note 4.6, ECL are measured as an allowance equal to 12-month ECL for Stage 1 assets, or lifetime ECL assets for Stage 2 or Stage 3 assets. An asset moves to Stage 2 when its credit risk has increased significantly since initial recognition. IFRS 9 does not define what constitutes a significant increase in credit risk. In assessing whether the credit risk of an asset has significantly increased the Group takes into account qualitative and quantitative reasonable and supportable forward looking information.

### 5.2 Establishing groups of assets with similar credit risk characteristics

When ECLs are measured on a collective basis, the financial instruments are grouped on the basis of shared risk characteristics. The Group monitors the appropriateness of the credit risk characteristics on an ongoing basis to assess whether they continue to be similar. This is required in order to ensure that should credit risk characteristics change there is appropriate re-segmentation of the assets. This may result in new portfolios being created or assets moving to an existing portfolio that better reflects the similar credit risk characteristics of that group of assets.

### 5.3 Models and assumptions used

The Group uses various models and assumptions in measuring fair value of financial assets as well as in estimating ECL. Judgment is applied in identifying the most appropriate model for each type of asset, as well as for determining the assumptions used in these models, including assumptions that relate to key drivers of credit risk. See note 4.6 for more details on ECL.

for the year ended 31 December 2020

### 5. Critical accounting judgments and key sources of estimation of uncertainty (continued)

### 5.4 Classification of financial assets

The classification and measurement of the financial assets depend on the management business model for managing its financial assets and on the contractual cash flow characteristics of the financial assets assessed. Management is satisfied that the Group's financial assets are appropriately classified and measured.

Financial assets that are measured at amortised cost are those assets that are held within a business model whose objective is to hold asset in order to collect contractual cash flow and the contractual terms gives rise on specified dates to cash flow that are solely payments of principal and profit.

All other investments are classified as carried at fair value through other comprehensive income.

### 5.5 Valuation of investment properties

The Group determines the fair value of its investment properties on the basis of market valuations prepared by independent professional valuers. The valuations are carried out on assumptions which are based on the market conditions existing at the reporting date. Therefore, any future change in the market conditions can have an impact on the fair values.

for the year ended 31 December 2020

### 6. Bank balances and cash

	31 December 2020 AED'000	31 December 2019 AED'000
Bank balances Cash in hand	268,645	151,714 10
Total	268,645	151,724

Bank balances are held with banks within the U.A.E. and are profit generating at an average profit rate of 0.41% (31 December 2019: 1.11%).

For the purpose of condensed consolidated statement of cash flows, cash and cash equivalents comprise the following:

	31 December	31 December
	2020	2019
	AED'000	AED'000
Bank balances and cash	268,645	151,724
Less: Deposits with original maturity over three months	(66,114)	(66,114)
Cash and cash equivalents	202,531	85,610
		======

### 7. Islamic financing and investing assets, net

	Note	31 December 2020 AED'000	31 December 2019 AED'000

Balance at 1 January 2019 Impairment charge during the year Write off	21	155,602 (18,501)	,	211,575 71,362 (89,285)	419,919 52,208 (89,285)
Balance at 31 December 2019		137,101	52,089	193,652	382,842

The impairment allowance as per IFRS 9 for all financial assets of the Group meets the regulatory provision requirements of the Central Bank of the UAE. Therefore, no regulatory credit risk reserve has been accounted for.

### Collateral

The Group enters into collateral arrangements with counter parties in appropriate circumstances to limit credit exposure. Under Ijara financing structure, the legal ownership of the finance property is maintained with the Group until the customer (lessee) has fulfilled all his obligations under the relevant Ijara agreement.

The fair value of the collaterals that the Group holds relating to facilities individually determined to be impaired at 31 December 2020 amounts to AED 273 million (2019: AED 329 million).

for the year ended 31 December 2020

### 8. Other investments carried at FVTOCI

for the year ended 31 December 2020

### 9. Investment properties (continued)

All the investment properties held by the Group are located within the United Arab Emirates. During the year ended 31 December 2020, the Group repossessed properties of AED 55.4 million (2019: AED 65.1 million) through foreclosure.

The valuations are carried out by professional valuator not related to the Group who hold recognised and relevant professional qualifications and have recent experience in the location and category of the investment property being valued. The valuations were based on comparable transaction method that is made on the principle that the value of one property may be derived by comparing it with the prices achieved from transactions in similar properties.

The fair value of the Group's investment properties as at 31 December 2020 is AED 845 million (2019: AED 960 million). The fair value is mainly based on unobservable market inputs (i.e. level 3).

### 10. Advances, prepayments and other receivables

	2020	2019
	AED'000	AED'000

Accumulated depreciation  Balance at 1 January  Charge for the year  Disposal	10,472 880 (2,034)	9,403 1,069
Balance at 31 December	9,318	10,472
Carrying value at 31 December	8,290 =====	11,260

for the year ended 31 December 2020

### 12. Zakat

As at 31 December 2020 an amount of AED 3.8 million (2019: AED 3.8 million) has been accrued as zakat liability.

### 13. Accounts payable, accruals and other liabilities

Profit payable on Islamic financing obligations Accounts payable Unclaimed dividends Employees' end of service benefits Accrual and other liabilities	<i>Note</i> 13.1	2020 AED'000 14,049 15,298 11,744 36,847 77,938	2019 AED'000 451 12,335 15,298 11,868 26,829 66,781
13.1 Employee end of service benefits  Balance at beginning of the year Charge for the year Paid during the year		2020 AED'000 11,868 1,875 (1,999)	2019 AED'000 10,623 2,702 (1,457)
14. Islamic financing obligations		11,744	11,868
Wakala Total		AED'000	AED'000  185,000  185,000

The effective average profit rate on these Wakalas was 5.15% per annum.

### 15. Share capital

As at 31 December 2020, 1,000,000,000 authorised ordinary shares of AED 1 each (31 December 2019: 1,000,000,000 ordinary shares of AED 1 each) were fully issued and paid up.

for the year ended 31 December 2020

### 16. Statutory reserve

As required by the Commercial Companies Law and the Company's Articles of Association, 10% of the profit for the year is transferred to statutory reserve. The Company may resolve to discontinue such annual transfers when the reserve totals 50% of paid up share capital. This reserve is not available for distribution except in the circumstances as stipulated by U.A.E. Commercial Companies Law.

### 17. General reserve

As per the Company's Articles of Association, deductions for the general reserve shall stop by resolution of an Ordinary General Assembly upon the recommendation of the Board of Directors when this reserve reaches 50% of the paid up capital of the Company. The Board of Directors have not proposed any transfer to General Reserve as the reserve is in excess of the 50% of the paid up capital of the Company. This reserve shall be utilised for the purpose determined by the General Assembly at an ordinary meeting upon the recommendation of the Board of Directors.

### 18. Special reserve

The special reserve, which was created in accordance with the recommendations of the U.A.E. Central Bank, is not available for distribution.

### 19. Income from Islamic financing and investing assets

	2020 AED'000	2019 AED'000
Income from Islamic financing and investing assets Processing and other fee income	94,512 4,949	128,674 7,141
	99,461	135,815
20. Other income		
	2020 AED'000	2019 AED'000
Portfolio management fee Rental income from investment properties Others	21,600 24,230 13,106	21,600 27,592 193,398
	58,936	242,590

Other income for year ended 31 December 2019 included an amount of AED 170.9 million on account of favourable judgement in a court case.

### 21. Impairment charges, net

	Note	2020 AED'000	2019 AED'000
Charge for Islamic financing and investing assets, net Charge on investment properties	7.2	70,116 92,000	52,208 19,154
		162,116	71,362

for the year ended 31 December 2020

### 22. Commitments

Irrevocable commitment to extend credit as of 31 December 2020 is AED 135.1 million (31 December 2019: AED 141.1 million).

### 23. Contingencies

At the reporting date, the Group is in legal proceedings against certain customers in the UAE to recover AED 6.7 million (31 December 2019: AED 6.4 million). These proceedings are in various stages in the courts and based on legal advice, the management of the Group is contesting the legal cases and is pursuing the full recovery of the outstanding balances. Accordingly, no provision for litigation has been made in these consolidated financial statements.

### 24 Risk management

Risk is inherent in the Group's activities, but it is managed through a process of ongoing identification, measurement, mitigation and monitoring and by subjecting risk to limits and other controls. As Tamweel is a critical component of its parent's home finance department, overall risk management activities are carried out at parent level through its own corporate governance and risk management structure. This process of risk management is critical to Group's continuing profitability and sustainability. The Group is exposed to credit risk, liquidity risk and market risk, the latter being subdivided into trading and non-trading risks. It is also subject to operational risks.

The independent risk control process does not include business risks such as changes in the environment, technology and industry. Those risks are monitored through the Group's strategic planning process.

The major risks to which the Group is exposed in conducting its business and operations, and the means and organisational structure it employs in seeking to manage them strategically in its attempt to build stakeholder's value are outlined below.

The Board of Directors is responsible for the overall risk management approach and for approving the risk strategies and policies.

As detailed below, the Board of Directors of the Company is supported by the Board Risk Management Committee, Risk Management Department, Assets and Liabilities Management Committee and Internal Audit department of its parent, for identifying, monitoring and managing risks.

### Board Risk Management Committee

The Board Risk Management Committee has the overall responsibility for the development of the risk strategies, frameworks, policies and limits, and for recommending these strategies and policies to the Board of Directors. It is responsible for the fundamental risk issues, and manages and monitors relevant risk decisions.

### Risk Management Committee

The day-to-day management of risk has been delegated to Risk Management Committee.

The Risk Management Committee has the overall responsibility to support the Board Risk Management Committee for the development and formulation of the risk strategy, frameworks, policies and limits. It is responsible for ensuring the compliance with all risk limits, monitoring risk exposures and implementing the regulatory guidelines issued by the regulatory bodies (e.g. The Central Bank of the U.A.E.).

for the year ended 31 December 2020

### 24. Risk management (continued)

### Risk Management Department

The Risk Management Department is responsible for implementing and maintaining risk related procedures to ensure risk remains within the acceptable range as approved by the Board Risk Management Committee and the Board of Directors. The department is responsible for credit approval, credit administration, portfolio management, credit risk, market risk, operational risk and overall risk control.

### Internal Audit Department

Risk management processes throughout the Group are audited periodically by the Group Internal Audit Department which examines both the adequacy of the procedures and the Group's compliance with the procedures. Internal Audit Department comments on the results of their assessments with management, and reports its findings and recommendations to the Board Audit Committee.

### Internal Sharia Audit Department

Compliance to Sharia and the Fatawa issued by the ISSC of the Group in all the matters of the Group including the execution of the transactions are audited periodically by the Internal Sharia Audit Department which examines the adequacy of the procedures and the Group's compliance with the Fatawa and guidance of the ISSC. Internal Sharia Audit Department discusses the findings of their assessments with the management and submits the findings along with responses of the relevant departments and its recommendations to the ISSC then to the Board Audit Committee.

### Sharia Compliance Unit

Moreover, there is a Sharia Compliance Unit under Internal Sharia Control Department of the Group which constantly monitors Sharia Risk and Sharia compliance level of the Group and submits its quarterly reports to the ISSC and the management.

### Asset and Liability Committee

Asset and Liability Management Committee ("ALCO") is responsible for managing the Group's assets and liabilities and the overall financial structure. It is also primarily responsible for the funding and liquidity risks of the Group.

The ALCO monitors the asset performance and financial position of the Group. The ALCO is also responsible for establishing risk management standards and methodologies, monitoring liquidity and alternative funding sources, reviewing market rate risk and regulatory capital levels and determining pricing parameters and Tamweel's base profit rate.

### Sharia Supervisory Board

In compliance with Tamweel's memorandum and Articles of Association, Tamweel has an Internal Sharia Supervision Committee which oversees all areas of operation in order to ensure that Tamweel's business activities are in accordance with Sharia principles. The Internal Sharia Supervision Committee is responsible to review the operational, financing and investing activities of the Group ensuring their alignment and compliance with the principles of Sharia as set out in the Sharia Standards issued by Accounting & Auditing Organization for Islamic Financial Institutions (AAOIFI) and Higher Sharia Authority of UAECB. And interpreted by Internal Sharia Supervision Committee. Being a supervisory board they are also required to audit the business activities undertaken through the Internal Sharia Audit Department and present an independent report to the shareholders with regard to the implementation of the principles of Sharia in the Group's overall activities.

For all levels throughout the Group, specifically tailored risk reports are prepared and distributed in order to ensure that all business divisions have access to extensive and up-to-date information necessary for their proper management and monitoring of risks inherent in the activities.

for the year ended 31 December 2020

### 24. Risk management (continued)

### Types of Risk the Group is subject to:

### **Concentration risk**

Concentration risk arises when a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentration risk indicates the relative sensitivity of the Group's performance to developments affecting a particular nationality, industry or geographical location.

In order to avoid excessive concentration of risk, the Group's policies and procedures include specific guidelines to maintain a diversified portfolio. This is further enforced by the Credit Committee's oversight. Identified concentration of credit risks are controlled and managed accordingly.

### Credit risk

Credit risk is the risk that a customer or counterparty will fail to meet a commitment, resulting in financial loss to the Group. Such risk stems mainly from day to day Islamic financing activities undertaken by the Group. Credit risk is actively monitored in accordance with the credit policies which clearly define delegated financing authorities, credit standards and procedures.

The Group attempts to control credit risk by monitoring credit exposures, maintaining credit limits and limiting transactions with specific counterparties. The Group has built and maintains a sound credit portfolio within the guidelines of the Board approved credit policy. The Group has an established risk management process encompassing of credit approvals, control of exposures, credit policy direction to business unit, well-designed credit appraisals, review of exposures both on an individual and a portfolio basis, and incorporation of robust problem credit management procedures. Special attention is directed towards the management of past-due financing assets through a dedicated Collection Team.

The Group enters in collateral arrangements with counterparties in appropriate circumstances to limit credit exposure. With a relatively dominant Ijara financing structure, the ownership of the financed property is maintained with the Group until the customer (lessee) has fulfilled all his obligations under the relevant Ijara.

for the year ended 31 December 2020

### 24. Risk management (continued)

### **Credit risk (continued)**

### Maximum exposure to credit risk without taking account of any collateral and other credit enhancements

The table below shows the maximum exposure to credit risk for the components of the consolidated statement of financial position. The maximum exposure is shown gross.

	Gross	Gross
	maximum	maximum
	exposure	exposure
	2020	2019
	<b>AED'000</b>	AED'000
Bank balances	268,645	151,714
Islamic financing and investing assets	1,962,001	2,320,697
Advances and other receivables	91,184	76,709
Total	2,321,830	2,549,120
Irrevocable commitments to extend credit	135,124	141,122

The Group's financial assets, before taking into account any collateral held or other credit enhancements are analysed by business segment in Note 25.

The table below shows the credit quality by class of financial asset.

At 31 December 2020	Stage 1 AED'000	Stage 2 AED'000	Stage 3 AED'000	Total AED'000
Bank balances Islamic financing and investing assets Advances and other receivables	268,645 1,191,158 87,887	431,477	339,366 3,297	268,645 1,962,001 91,184
Advances and other receivables	1,547,690	431,477	342,663	2,321,830
At 31 December 2019				
Bank balances	151,714	-	-	151,714
Islamic financing and investing assets	1,466,079	460,956	393,662	2,320,697
Advances and other receivables	73,412	-	3,297	76,709
	1,691,205	460,956	396,959	2,549,120

for the year ended 31 December 2020

### 24. Risk management (continued)

### **Credit risk (continued)**

It is the Group's policy to maintain accurate and consistent risk ratings across the credit portfolio. This facilitates focused management of the applicable risks and the comparison of credit exposures across all lines of business, geographic regions and products. The rating system is supported by a variety of financial analytics, combined with processed market information to provide the main inputs for the measurement of counterparty risk. All internal risk ratings are tailored to the various categories and are derived in accordance with the Group's rating policy. The attributable risk ratings are assessed and updated regularly.

### Collateral and other credit enhancements

The finance provided by the Group is asset backed in accordance with the principles of Sharia. Properties are funded based on "Group's Appraised Value". In the case of new properties, the appraised value is similar to the developers' per square footage rate further assessed by independent valuers. However, in some cases the Group might have lower rates than the developers based on the Group's view of the property. In case of older properties the appraised value is determined by the Credit Department. These valuations are based on the valuation report from valuers, whenever required, and the property prices witnessed in the Group past funding transactions.

The fair value of the asset collaterals is estimated to be approximately AED 2.9 billion as at 31 December 2020 (2019: AED 3.7 billion).

Property takaful / Islamic insurance is mandatory and the property is insured against all normal risks for the value stated in the sale agreement, or the valuation amount given by the surveyor, as the case maybe. The insured value is maintained at the original property value through the life of the finance.

### Profit rate risk

Profit rate risk arises from the possibility that changes in profit rates will affect future profitability or the fair values of financial instruments. In the Group's consolidated financial statements, mainly two line items can lead to such exposure i.e. Islamic financing assets and Islamic financing obligations, as shown on the assets and liability sides respectively. The profit rate risk for the Group is minimal in the short term period.

The profit rate for financing assets is a composition of EIBOR and internal spread which cannot be expected to fluctuate frequently based on EIBOR movement. The Group reviews the profit rate on a monthly basis during its ALCO meeting and, if required, recommends rate change based on market conditions and competition.

The profit rate on Islamic financing obligations is contractually determined on contract initiation.

The following table demonstrates the sensitivity to a reasonable possible change in profit rates, with all other variables held constant, of the Group's consolidated statement of comprehensive income.

	Increase in basis points	2020 AED'000	2019 AED'000
Sensitivity of net profit income	50 bps	7,870	9,534

for the year ended 31 December 2020

### 24. Risk management (continued)

### **Currency risk**

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates.

All assets and liabilities as at 31 December 2020 are denominated in the U.A.E, therefore, the Group is not exposed to any currency risk.

### **Equity price risk**

Equity price risk is the risk that the fair values of equities decrease as the result of changes in the levels of equity indices and the value of individual stocks. The non-trading equity price risk exposure arises from the Group's investment portfolio.

The effect (as a result of a change in the fair value of equity instruments held at 31 December 2020 and 31 December 2019) due to a reasonably possible change in equity indices, with all other variable held constant, is as follows:

	Change in market indices		ect on other sive income
	%	2020 AED'000	2019 AED'000
Sensitivity of fair value	<u>+</u> 5%	2,757	3,295

### Settlement risk

Early settlement risk is the risk that the Group will incur a financial loss because its counterparties settle earlier or later than expected.

The Group does not have any significant early settlement risk as the amount recovered in case of early settlement is more than the fair value of the asset on settlement date, by adding a margin, and to recover amount on time and to avoid any delays. The collection team, supervised by the Credit committee monitors the customer receivable position on a daily basis.

### **Operational risk**

Operational risk is the risk of loss arising from systems failure, human error, fraud or external events. When controls fail to perform, operational risks can cause damage to reputation, have legal or regulatory implications, or lead to financial loss. The Group cannot expect to eliminate all operational risks, but through a control framework and by monitoring and responding to potential risks, the Group is able to manage the risks. Controls include effective segregation of duties, access, authorisation and reconciliation procedures, staff education and assessment processes, including the use of internal audit.

for the year ended 31 December 2020

### 24. Risk management (continued)

### Liquidity risk

Liquidity risk is the risk that the Group may be unable to meet its funding requirements. This can be caused by political uncertainty, market disruptions or deterioration in the Group's credit ratings.

The Group monitors its liquidity position and funding strategies on an ongoing basis, but recognises that unexpected events, economic or market conditions, earnings problems or situations beyond its control could cause either a short or long-term liquidity crisis.

The Group reviews the maturity gap analysis in its monthly ALCO meetings to identify potential liquidity risks in advance. The gap measures liquidity in five time buckets for each type of asset and liability for each period, as well as cumulatively.

### Non-Shariah Compliance Risk

In compliance with the Sharia Governance Standard for Islamic Financial Institutions issued by the Higher Sharia Authority of the Central Bank of UAE ("HSA") on 21 April 2020 (the "Standard"), the Group's Board of Directors ("Board") is ultimately responsible for the Groups' compliance with Sharia principles. The ISSC is the highest authority in the Bank from a Sharia governance perspective.

The Board is expected to be aware of Sharia non-compliance risk and its potential impact on the Group. The Board Risk, Compliance and Governance Committee ("BRCGC") shall supervise and monitor management of Sharia non-compliance risk, and set controls in relation to this type of risk, in consultation with ISSC and through the Internal Sharia control Department of the Group. ("ISCD"). The BRCGC shall ensure the availability of an information system that enables the Bank to measure, assess and report Sharia non-compliance risk. Reports shall be provided in a timely manner to the Board and Senior Management, in formats suitable for their use and understanding.

Notes to the consolidated financial statements for the year ended 31 December 2020

### 24. Risk management (continued)

## Maturity analysis of assets and liabilities

The maturity analysis of assets and liabilities analysed according to when they are expected to be recovered or settled.

Segment liabilities	59,861	21,905	81,766	193,510	62,149	255,659

No secondary segment information has been provided as currently the operations of the Group are concentrated primarily in the U.A.E.

for the year ended 31 December 2020

### 26. Capital management

The primary objective of the Group's capital management is to ensure that it maintains healthy capital ratios in order to support its business and maximise shareholders' value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the years ended 31 December 2020 and 31 December 2019. Capital comprises share capital, statutory reserve, general reserve, special reserve and retained earnings.

### 27. Related party transactions

Parties are considered to be related if one party has the ability to control or influence over the other party in making financial or operating decisions.

The Group enters into transactions with shareholders, directors, key management personnel and their related concerns in the ordinary course of business at terms agreed between both parties.

The significant balances and transactions of related parties included in the consolidated financial statements are as follows:

2020	Major shareholders AED'000	Companies under common control AED'000	Total AED'000
Bank balances and cash	268,645	-	268,645
Other investments carried at FVTOCI	55,145	-	55,145
Advances, prepayments and other receivables	5,592	2,955	8,547
Income on mudarba deposits and wakala investments	858	-	858
Portfolio management fee	21,600	-	21,600
Other income	4,187	-	4,187
General and administrative expenses	-	11,479	11,479
Depositors'/investors' share of profit and related cost	2,391	-	2,391
2019	Major shareholders AED'000	Companies under common control AED'000	Total AED'000
Bank balances and cash	151,714	-	151,714
Other investments carried at FVTOCI	65,911	-	65,911
Advances, prepayments and other receivables	5,695	1,654	7,349
Islamic financing obligations	185,000	-	185,000
Depositors'/investors' share of profit payable	451	-	451
Income on Islamic financing and investing assets	866	-	866
Portfolio management fee	21,600	-	21,600
Other income	4,187	-	4,187
General and administrative expenses	-	11,043	11,043
Depositors'/investors' share of profit and related cost	26,084	-	26,084

for the year ended 31 December 2020

### 27. Related party transactions (continued)

The compensation paid to key management personnel of the Group is as follows:

	2020 AED'000	2019 AED'000
Short term employee benefits Termination and other benefits	7,149 208	7,567 348
	7,357	7,915

### 28 Fair values of financial instruments

### (1) Fair value of financial instruments measured at amortised cost

The fair values of financial instruments measured at amortised cost are not materially different from their carrying values.

### (2) Fair value of financial instruments measured at fair value

Fair value of other investment measured at fair value through other comprehensive income are based on quoted price in an active market and are included in the Level 1 of fair value hierarchy.

### 29. Profit rate benchmark reforms

On August 27, 2020, the IASB issued Profit Rate Benchmark Reform – Phase 2, Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 (the "amendments"). The amendments introduce a practical expedient to account for a change in the basis for determining the contractual cash flows of financial instruments that are impacted by profit rate benchmark reform ("IBOR reform"). Under the practical expedient, the Group will not derecognize or adjust the carrying amount of financial instruments for modifications required by IBOR reform, but will instead update the effective profit rate to reflect the change in the profit rate benchmark. The practical expedient will be applied when the modification is required as a direct consequence of IBOR reform, and the new basis for determining the contractual cash flows is economically equivalent to the previous basis. The impact of the replacement of interbank offered rates ('IBORs') with alternative risk-free rates on the Group's products and services remains a key area of focus. The Group has exposure to contracts referencing IBORs, such as Libor, extending past 2021 when it is likely that these will cease being published.

Management has commenced a project to ensure the Group's transition to new rate regimes after 2021 by considering changes in its products, services, systems and reporting. The project is significant in terms of scale and complexity and will impact all facets of its operations from customer contracts and dealings to the risk management processes and earnings. The Group continues to engage with internal and external stakeholders to support an orderly transition and to mitigate the risks resulting from the transition.

### **30.** Approval of the consolidated financial statements

The consolidated financial statements were approved by the Board of Directors and authorised for issue on 22 February 2021.
